Career Objective

Computer Science Engineering student with strong knowledge in Full Stack Development, Frontend Development, ReactJS, JavaScript, Python, HTML5, CSS3, Bootstrap, and Tailwind CSS. Skilled in building responsive web applications and reusable UI components. Seeking an entry-level Software Developer opportunity to apply technical, analytical, and problem-solving skills in a collaborative environment.

Technical Skills

Programming Languages: Python, JavaScript

Frontend Technologies: HTML5, CSS3, ReactJS, Bootstrap 5, Tailwind CSS

Backend Technologies: Python

Database: SQL

Core Concepts: Full Stack Development, Responsive Web Design, UI Development, Object Oriented Programming

Developer Tools: Git, GitHub, VS Code

Internship Experience

Full Stack Development Intern

RINL Vizag Steel Plant

- Built responsive web pages using HTML5, CSS3, JavaScript, and Bootstrap.
- Connected frontend interfaces with backend services using REST APIs, improving application performance and ensuring accurate data synchronization.
- Increased application usability through responsive layouts and UI optimization.

Web & App Development Intern

Datavalley India Pvt. Ltd.

- Generated responsive web interfaces and reusable UI components using ReactJS.
- Designed frontend layouts and interactive portfolio pages using modern web technologies.
- Strengthened GitHub workflow, version control, and collaborative development skills.

Projects

Eco Track AI – Smart Sustainability Tracking Platform

Tech Stack: ReactJS, Python, MySQL

- Integrated carbon emission tracking, energy monitoring, and REST API functionality.
- Created responsive dashboards and reusable frontend components for improved user experience.
- Managed backend data operations and MySQL database connectivity.
- Applied Git and GitHub for collaborative development and source code management.

Shoe E-Commerce Website – Online Shopping Platform

Tech Stack: ReactJS, Bootstrap, HTML5, CSS3, JavaScript

- Created a responsive e-commerce website with modern and mobile-friendly UI design.
- Applied product listing pages, reusable ReactJS components, and responsive navigation.
- Enhanced frontend performance with interactive layouts and optimized user experience.
- Added responsive product cards and smooth page routing functionality.
- Managed project workflow and version control using Git and GitHub.

Employee Management System – Employee Record Management

Tech Stack: Python, MySQL, OOP

- Developed a simple employee management system to manage employee records efficiently.
- Executed CRUD operations to add, view, search, update, and delete employee details.
- Applied Python Object-Oriented Programming concepts using classes, objects, and encapsulation.
- Integrated MySQL database to store and manage employee information.
- Enforced input validation and exception handling for reliable application functionality.

Education

B.Tech – Computer Science Engineering

Krishna University College of Engineering and Technology

2022 – 2026

CGPA: 7.26

Intermediate (MPC)

SAV & NVJR Junior College

2020 – 2022

59.7%

SSC

Zilla Parishad High School

2019 – 2020

87.5%

Certifications

- Full Stack Web Development – RINL Vizag Steel Plant
- Web & App Development – Datavalley India Pvt. Ltd.

Soft Skills

- Problem Solving
- Team Collaboration
- Communication Skills
- Quick Learning
- Adaptability

Declaration
